

PARENT PORTAL: VIEWING STANDARDS-BASED DATA POINTS AND FINAL GRADES

Please follow these steps to view your student's standards-based grades:

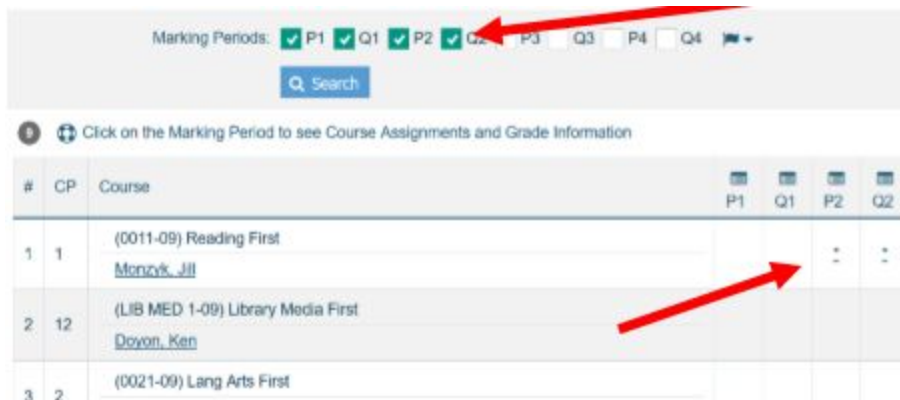

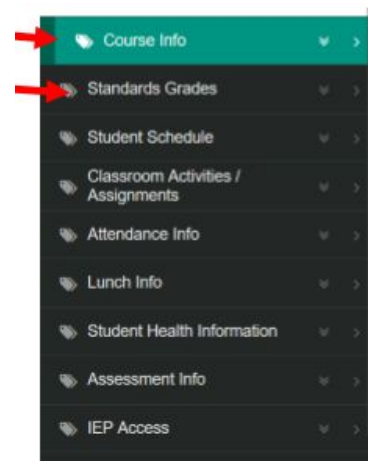

Log into Lumen using your unique ID and password. Next to the student you wish to view, click **View Student Summary**.

Once you are in the portal, you can choose between **Course Info** (for the entry of each data point) or **Standards Grades**.

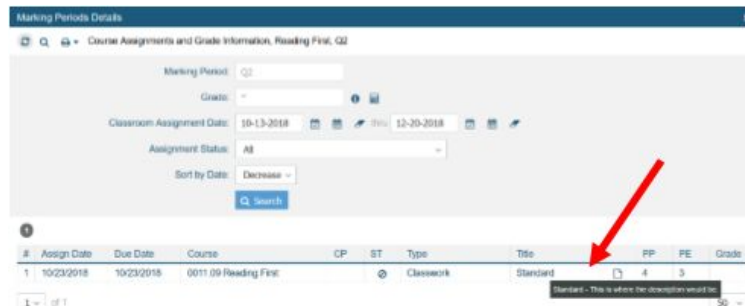

When you choose **Course Info**, this allows you to see each of the individual assignments/assessments given to your student to determine mastery of a particular standard. (There will not be a letter grade or a percent for any of these as they are graded based on a rubric of not more than 4 points.) Rubrics can be found on the district website at the following link:

http://www.washington.k12.mo.us/parents/standards_based_grading

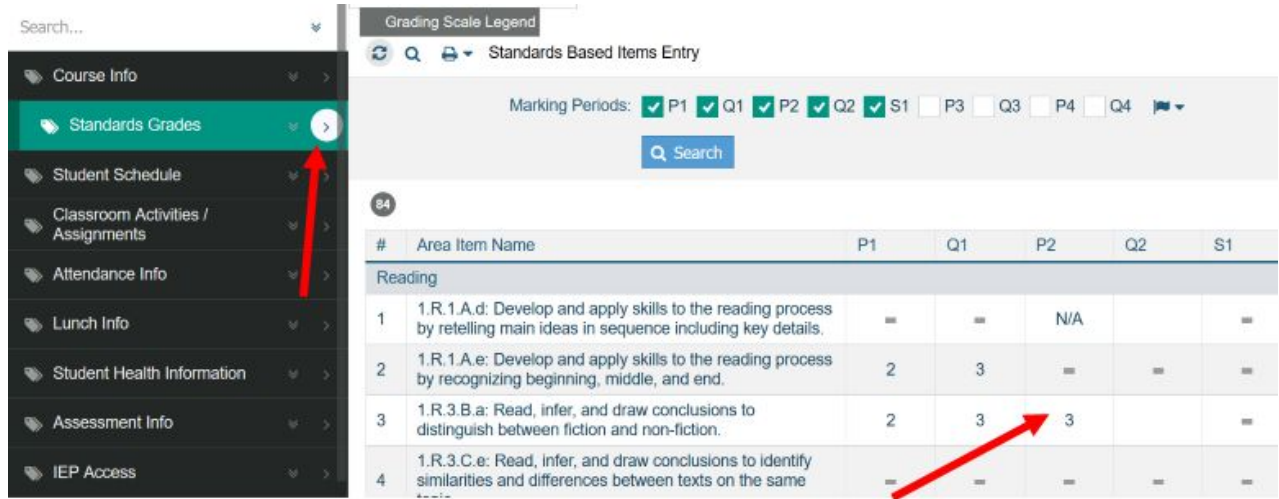

To see all of the data points for a particular course, click the arrow to the right of **Course Info**. This opens a window on the right that shows all courses. Search for the correct marking period (Q1, Q2, etc.) and click on the * in that column.

Each assignment for that course will appear. You may need to “hover” your cursor over the assignment title in order to view all of its descriptive details.

Once you have viewed all of the assignments/assessments, you can go to the **Standards Grades** area to view the final score (at the end of the quarter only) for each standard assessed during a particular marking period. Be sure to choose the correct marking period, click **Search**, and scroll to find the course you wish to view.

The screenshot shows the 'Standards Based Items Entry' interface. On the left is a navigation menu with 'Standards Grades' highlighted in green. A red arrow points to the right arrow icon on the 'Standards Grades' menu item. The main area shows a 'Grading Scale Legend' and 'Standards Based Items Entry' header. Below this is a 'Marking Periods' section with checkboxes for P1, Q1, P2, Q2, S1, P3, Q3, P4, and Q4. A 'Search' button is present. Below the search bar is a table with 84 items. The table has columns for '#', 'Area Item Name', 'P1', 'Q1', 'P2', 'Q2', and 'S1'. The table is filtered to show 'Reading' items. A red arrow points to the '3' in the 'P2' column for item 3.

#	Area Item Name	P1	Q1	P2	Q2	S1
Reading						
1	1.R.1.A.d: Develop and apply skills to the reading process by retelling main ideas in sequence including key details.	-	-	N/A	-	-
2	1.R.1.A.e: Develop and apply skills to the reading process by recognizing beginning, middle, and end.	2	3	-	-	-
3	1.R.3.B.a: Read, infer, and draw conclusions to distinguish between fiction and non-fiction.	2	3	3	-	-
4	1.R.3.C.e: Read, infer, and draw conclusions to identify similarities and differences between texts on the same	-	-	-	-	-

If you have any questions concerning grades, please contact your child's teacher.

For technical issues **only**, please contact either Freeman Fouts or Carmen Kenney-Hill at the Technology and Learning Center by calling 636-231-2800.
