PRINT

It is the policy of the Board of Education to provide a free and appropriate education for students with disabilities, including those who are in need of special education and related services.

General

Any individual who knows or believes that a student has a disability and is in need of accommodation should contact the school's principal or district administration immediately.

All complaints regarding discrimination will be resolved in accordance with policy AC. Anyone who has a complaint or suspects discrimination should contact the compliance officer identified in policy AC.

The district will notify all parents and students of its obligations under this policy and the law.

Unless the parents of the child have initially consented in writing to the district's offer to provide special education and related services, the district cannot, and will have no obligation to, provide special education services pursuant to the Individuals with Disabilities Education Act (IDEA), and the child will not receive the protections of the IDEA.

Students Eligible for Special Education Services under the IDEA

The district's programs and services available to meet the needs of **students with disabilities** will be in accordance with applicable federal and state laws governing special education services, including the State and Local Plans for the implementation of Part B of the IDEA. However, if the State of Missouri does not receive or accept federal IDEA Part B funds, nothing in this policy shall be read to require anything, procedurally or substantively, that is not required by the governing law.

Students Placed in Private Schools by Their Parents

In general, the School District of Washington has no obligation to provide a free, appropriate public education (FAPE) or special education and related services to any student enrolled in a private school by his or her parents. The district will expend a proportionate amount of its IDEA Part B funds on the group of privately placed students as a whole, as required by law.

Parents of a student previously enrolled in the district who choose to unilaterally place the student in a private school without district consent due to a dispute regarding FAPE will not be reimbursed for tuition costs except as required by law.

Evaluation and Identification

The special education director will develop and implement procedures governing the evaluation of students to determine their eligibility for special education services in accordance with the law and state and local plans. Further, the Board authorizes the special education director to use a discrepancy model, including the use of professional judgment or a response to intervention (RTI) model, for identifying students with specific learning disabilities (SLD).

Independent Evaluations

An Independent Educational Evaluation (IEE) will be provided as required by the IDEA. Applicable procedures, evaluator criteria and cost guidelines governing the IEE process are available through the district's special services office. The Board delegates the authority to make changes to these procedures, evaluator criteria and cost guidelines to the superintendent or designee. These items will adhere to rules published in the State and Local Plans for Compliance with Part B of the IDEA.

Extended School Year

Extended school year (ESY) services may be necessary to provide a child with a disability a free and appropriate public education pursuant to law. The individualized education program (IEP) team will consider ESY services for all special education students eligible for services under the IDEA, but ESY services will only be provided if the student is found eligible in accordance with this policy.

A student will be eligible for ESY services if, based on the available data, the student needs services beyond the regular school day/term to avoid regression that will interfere with the student's ability to continue to progress in the curriculum. This determination will be based on consideration of the following:

1. The nature and severity of the student's disability.
2. The areas of learning crucial to the child's attainment of self-sufficiency and independence.
3. The student's progress.
4. The student's behavioral and physical needs.
5. Opportunities the student will have to practice skills outside of the classroom setting without ESY services.

6. Availability of alternative resources.
7. Areas of curriculum that need continuous attention.
8. Ability of the student's parents to provide educational structure.
9. Particular curricular or vocational needs of the student.
10. The opportunity for the child to interact with nondisabled children.

The length, nature and type of ESY services will be determined by the IEP team and addressed in each student's IEP. If at the time the IEP is developed it is unreasonable to predict eligibility for ESY services, the IEP team will meet after sufficient time has passed for the team to make an informed decision about ESY services, but not later than six (6) weeks prior to the end of the regular school term.

Mediation

The Board of Education authorizes the special education coordinator to legally bind the school district to a mediation agreement developed in accordance with the IDEA and Missouri law and further authorizes the special education coordinator to contact an attorney for legal advice prior to making any decisions. In the absence of the special education coordinator, the assistant superintendent who oversees programs for **students with disabilities** is authorized to perform his or her duties under this section.

Resolution

The Board of Education designates the special education coordinator to represent the school district in resolution meetings and gives the special education coordinator decision-making authority on behalf of the district. The special education coordinator has the authority to sign and legally bind the district to a settlement agreement reached at the resolution meeting. In the absence of the special education coordinator, the assistant superintendent who oversees programs for students with disabilities is authorized to perform his or her duties under this section. All other settlement agreements must be approved by the Board.

Children Three (3) to Five (5) Years of Age

When identifying children three to five years of age who qualify for special education but are not yet eligible for kindergarten, the district will use any of the disability categories, including that of Young Child with a Developmental Delay (YCDD). When a child so identified reaches kindergarten age, his or her eligibility will continue to be determined using any of the disability categories, including that of YCDD. A child who is not identified as eligible for special education services prior to reaching kindergarten age will be identified using disability categories excluding that of YCDD.

Accommodation of Students with Disabilities Including Those Not Eligible for Special Education Services under the IDEA

The district seeks to identify, evaluate and provide free and appropriate educational services in the least restrictive environment to all qualified **students with disabilities** within the definitions of Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act (ADA). No qualified student with a disability shall, on the basis of disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any district program, including nonacademic services and extracurricular activities.

Students with disabilities may be eligible for accommodation under this policy even though they are not eligible for services pursuant to the IDEA. The district will initiate a referral if a student requiring accommodation is also believed to be a student with a disability under the IDEA. Implementation of an IEP in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.
